A Word from the Editor – Making the strange familiar and the familiar strange

Earlier this month I was given the wonderful opportunity to visit Belgium and the Netherlands in the company of both my husband and my father, who was stationed there with the Canadian Army during WWII. During two weeks of “river cruising,” I experienced just about every aspect of museum education and interpretation I have ever read or written about – from following seasoned tour guides to hearing organ music in a church reconstructed using the bricks of a bombed-out cathedral to beholding “The Night Watch” to witnessing the reminiscences of family and new friends about what it meant to live through a war. The strange became familiar – and the familiar strange. What a gift! I wish you all such an unsettling chance to rethink and reframe.

Chris Castle, Editor

Special thanks to Sandra Murriello (Brazil), Kris Wetterlund (USA) and readers like you around the world!

(1) Ongoing Research

Concepciones sobre adquisición y transmisión de conocimiento científico en investigadores dedicados a la divulgación. *Conceptions about scientific knowledge transmission and acquisition in researchers as science communicators* (Brazil)

Research questions: This study attempts to compare two science communication models through texts shown to high school students in informal contexts. After this we will analyse the impact of both models. The two models are based on a synthesis of communication theory, cognitive psychology, science communication in museums.

Data presentation: Papers, Proceedings.

Principal researchers: Astrid Bengtsson, Sandra Murriello, Anabella Procopio, Adriana Cascón, Carlos Gho, Lilia Dubini.

Sites:: Instituto Balseiro, Universidad Nacional de Cuyo, Argentina.

Time: May 2009

Contact: astrid@cab.cnea.gov.ar, sandramu@gmail.com

Key words: Communication models, text analysis, Nanotechnology,

MUSEUM-ED

[Thanks to Kris Wetterlund for supplying these summaries. For more info see the museum-ed archives at <http://www.museum-ed.org/content/blogcategory/32/66/>]

February 2008

Topic: Chaperone Information

A query for pre-visit information (online resources, paper handouts, etc.) specifically made for parent chaperones yielded online papers from the Visitor Studies Association:

Burtnyk, K. M., & Combs, D. J. (2005). Parent chaperones as field trip facilitators: A case study. *Visitor Studies Today*, 8(1), 13-20.

http://www2.informalscience.org/download/VSA-a0a5z9-a_5730.pdf

Parsons, C., & Muhs, K. (1995). Field trips and parent chaperones: A study of self-guided school groups at the Monterey Bay Aquarium. *Visitor studies: Theory, research and practice: Selected papers from the 1994 Visitor Studies Conference*, 7, 57-61.

http://historicalvoices.org/pbuilder/pbfiles/Project38/Scheme325/VSA-a0a4k8-a_5730.pdf

and guides online at the National Constitution Center, one for each academic level (elementary, middle, high school) that include maps, an introduction to the museum, and two different types of activities (student self guided or teacher/chaperone led discussion trail).

<http://www.constitutioncenter.org/visiting/GroupInformation/Download&Print.shtml>

March 2008

Topic: Museum Manners

One Museum-Ed Discussion List member wrote about using a technique where visitors articulate guidelines for positive behavior in museum galleries: the docent, students, teachers, and chaperones take five minutes to collectively list the things that are important to help us all take care of the artwork and develop an atmosphere of respect and open sharing. Others shared techniques where children are asked to watch the adults to make certain they follow museum rules, and asking groups to compare a museum visit to “calling on the King,” and exhibit culturally suitable manners of behaving when visiting royalty. This approach is recommended for historic house museums, for art and science centers it may not be appropriate.

Kris also writes:

“I’ve just put up a new blog about my technology presentation at the National Art Education Association’s Museum Division Pre-Conference at www.museum-ed.org. In addition, there are many new resources including the winners of AAM’s museum label writing competition in 2002 and 2004, and a bibliography from David Ebitz’s NAEA session: What’s My Theory?”

EDUCATION AND URBAN SOCIETY

Vol. 40 #4 2008

- Kanevsky, Lannie; Corke, Michael; Frangkiser, Lorri, "The Academic Resilience and Psychosocial Characteristics of Inner-City English Learners Participating in a Museum-Based School Program" p 452-475

School in the Park is a museum-based intervention intended to nurture the resilience of inner-city students in third grade to fifth grade. The academic resilience and personal development of participants were compared to those of nonparticipants for 2 years. Although the groups differed in academic resilience for the duration of the study, they did not differ in their positive self-perceptions of three psychosocial variables (character, self-efficacy, and attitude toward school). The only significant difference between groups was in academic self-concept; program participants' and younger nonparticipants' ratings were stable, whereas those of the older nonparticipants declined. All groups' attitudes toward school declined. The independence of these two sets of measures was an unexpected finding, as they have been highly correlated in the majority of previous studies." <http://eus.sagepub.com/>

THE INFORMAL LEARNING REVIEW

Vol. 88, January-February 2008

- Jocelyn Dodd, Sheila Watson, and Sheri [sic] Jones, "Museums helping young people to engage, learn and achieve"

Report on new study by the Research Centre for Museums and Galleries (RCMG) at the University of Leicester, UK. Draws on “the experiences of 9 schools visiting 5 museums and one archive in the East of England region to find that 60% of pupils experienced an increase in their marks for the museum-related assignments compared to previous assignment marks.”

- W. Scott Heath, “Social networking and museums: A primer”

<http://www.informallearning.com/ilr-about.htm>

JAM (Arts Marketing Association)

#29, April 2008

- Peter Fisk, “Marketing Science”

“extract from *Peter Fisk's* bestseller *Marketing Genius* explores neuro marketing”

- AMA salary survey

- Peter Fisk, “Getting the message across”

“explores how audiences need to be engaged, and how they need structure and a story”

- Taryn Ozorio, “Why yes, our print is accessible”

“explains that accessibility cannot be measured in absolutes”

<http://www.a-m-a.org.uk/index.asp>

MUSEUM MANAGEMENT AND CURATORSHIP

Vol. 23, #2, June 2008

Includes:

- Lynn Uyen Tran, “The work of science museum educators”

“findings from an interview study with 24 educators from 10 museums in England. The investigation looked at how educators *characterise their work* and how their *work is organised*.

The analytical framework of this investigation draws on sociological discussions on professionalism. The findings show that there is shared conception of what museum educators do and that a technical language to talk about their work is emerging. However, further development may be effected by the diversity in educators' educational backgrounds.

Furthermore, the way work is divided in some (large) institutions directly challenges the integrity and expert knowledge of the practitioners, which may ultimately impede the occupation from truly becoming a profession.”

- Emily Hertzman; David Anderson; Susan Rowley, “Edutainment heritage tourist attractions: a portrait of visitors' experiences at Storyeum”

Edutainment heritage tourist attractions (EHTAs) are a hybrid form of attraction that seek to create a synergy between the educational value and the entertainment value of their heritage contents by using multimedia technologies. ... This study investigates visitors' experiences at this emergent form of attraction. Interviews with tourists at Storyeum, an EHTA in Vancouver, Canada, potentially reveals that EHTAs may be important sources of historical information and that tourists actively and critically engage with heritage representations at these attractions.”

- Denise Cole, “Museum marketing as a tool for survival and creativity: the mining museum perspective”

“considers the contribution that marketing can make to museum survival strategies and, in particular, the application of marketing tools to mining heritage museums.” Keywords: museum marketing; museum management; museum earned revenues; mining heritage; mining museums

<http://www.informaworld.com/smpp/title~db=all~content=t770943820~tab=issueslist>

READING TEACHER,

Vol. 61 #8 May 2008

Includes:

- A. Jonathan Eakle & Brooke L. Dalesio, "Museum Literacies of a Second-Grade Classroom" "Concepts of museum literacies are introduced in this report. Information is presented for how museum literacies were initiated, designed, and produced in a second-grade classroom. Findings show how participants took up museum literacies differently, including their uses of printed texts and other communicative forms. Two short case studies are presented that suggest how museum literacies can be engaging and transforming for students. Suggestions of how to use museum literacies are provided for educators, online museum resources are included. These practices suggest creative possibilities to teach literacies while covering subject area content and addressing school curricular standards."

<http://www.reading.org/publications/journals/rt/index.html>

TEACHING IN HIGHER EDUCATION

Vol. 13 #3 June 2008

Includes:

- Gabriel, John, "Refugee Community Oral Histories: Issues in Pedagogy and Curriculum Development" p265-277

"explores a community-based project documenting the histories of 15 refugee communities in London with a major exhibition at the Museum of London. While the focus of the article is concerned with the educational aspects of the project, an important argument suggests the inseparability of educational and pedagogic issues from a wider set of political influences. The article begins with an overview of the Refugee Community Histories Project, followed by a more detailed discussion of the postgraduate courses that made up its educational component and concludes with a reflection on the tensions arising from the differing priorities and interests of the project's participants. (Contains 10 notes.)"

<http://www.tandf.co.uk/journals/carfax/13562517.html>

THEORY INTO PRACTICE

Vol 47 #2 Apr 2008

- Kris Wetterlund, "Flipping the Field Trip: Bringing the Art Museum to the Classroom" p110-117

"examines the current landscape of online art museum educational resources and provides examples of the creative ways that teachers are using these resources in the classroom."

<http://ehe.osu.edu/tip/>

VISITOR STUDIES

Vol.11 #1 January 2008

Includes:

- Alexa Reynolds Delbosc, "Social Identity as a Motivator in Cultural Festivals" p. 3-15

"explores some of the reasons people visit cultural festivals at the Immigration Museum in Melbourne, Australia, ... it was found that social identity played a role in why people chose to visit, especially for community members and at the festivals of communities that were relatively new to Melbourne."

- Herman du Toit & Brigham Dye, "Empathic Dramatic Engagement as a Metaphor for Learning in the Art Museum" p. 73-89

“reports on a qualitative study that identified empathic dramatic engagement as a powerful lens for understanding how visitors learn in the art museum. Visitor responses to two art exhibitions reveal that visitors construct their own meaning-making narratives through a creative process of concept formation and imaginative elaboration (play). It is argued that visitors actively seek significant meaning through empathic engagement (identification) with selected exhibition elements in a manner similar to the way in which theater audiences identify with, and make meaning of, dramatic performances. Although these narratives are idiosyncratic in nature and rooted in the visitors' own memories and past experiences, it was found that visitors tend to conceptualize significant exhibition experiences in terms of basic elements of drama: character, plot, dialogue, and setting. The study also found that willing suspension of disbelief on behalf of the visitor is central to learning in the art exhibition setting, as it is in the theater. These findings confirm that the performative nature of the art museum environment is essentially evocative, and that art exhibitions lend themselves to empathic dramatic engagement.”

Open air museums – the history and future of a visionary idea

by Sten Rentzhog, Jamtli Publishing 2008

“In April 2007 leading staff members from Open Air Museums all over the world met at Skansen in Stockholm, Sweden for discussions about the future of this very special kind of museum. This anthology captures the main questionss which were discussed trough the papers presented at the conference.” http://www.jamtli.com/english/4514.open_air_museums.html

Engaging Art: The Next Great Transformation of America's Cultural Life

Steven J. Tepper and Bill Ivey, ed. Routledge, 2008

“explores the many ways that Americans participate in the arts today. The authors argue that a new commitment to arts participation in everyday art-making, creativity, and quality of life will not only restore the lifelong pleasure of homemade art, but will seed a new generation of arts enthusiasts.”

<http://ww2.americansforthearts.org/vango/core/orders/product.aspx?catid=5&prodid=848>

Exhibition Experiments

Sharon Macdonald & Paul Basu, ed. Wiley-Blackwell, 2007

“considers experiments with museological form that challenge our understanding of - and experience with - museums.

- Explores examples of museum experimentalism in light of cutting-edge museum theory
- Draws on a range of global and topical examples, including museum experimentation, exhibitionary forms, the fate of conventional notions of ‘object’ and ‘representation’, and the impact of these changes
- Brings together an international group of art historians, anthropologists, and sociologists to question traditional disciplinary boundaries
- Considers the impact of technology on the museum space
- Tackles a range of examples of experimentalism from many different countries, including Australia, Austria, Germany, Israel, Luxembourg, Sweden, the UK and the US
- Examines the changes and challenging new possibilities facing museum studies

Museum Revolutions How museums change and are changed

Simon J. Knell; Suzanne MacLeod; Sheila Watson, ed, Routledge, UK September 2007

“,, chapters reveal the diverse and subtle means by which museums engage and in so doing change and are changed. The authors span over 200 years discussing national museums, ecomuseums, society museums, provincial galleries, colonial museums, the showman's museum, and science centres. Topics covered include: disciplinary practices, ethnic representation, postcolonial politics, economic aspiration, social reform, indigenous models, conceptions of history, urban regeneration, sustainability, sacred objects, a sense of place, globalization, identities, social responsibility, controversy, repatriation, human remains, drama, learning and education.”

<http://www.informaworld.com/smpp/2095078750-11607847/title~content=t782834855~db=all>

The power of touch : Handling objects in museum and heritage contexts

Elizabeth Pye, Left Coast Press, 2008

“Despite the fact that we have a range of senses with which to perceive the world around us, museums and other cultural institutions have traditionally used sight as the main way to convey information. In everyday life, though, we use touch constantly in conjunction with sight. Why, then, does it play so small a role in the study and enjoyment of museum objects? Contributors to this volume explore how the sense of touch can be utilized in cultural institutions to facilitate understanding and learning.”

<http://www.lcoastpress.com/book.php?id=119>

(11) The Last Word

[Explaining “museumitis”] In a museum, as opposed to in a church or school, the tempo of the experience is controlled not by the person orchestrating the event but by the visitor himself [sic]; and thus a heavy burden of decision-making falls upon the visitor, who must decide to move on or stay, to avoid the crowd or be pushed on at a difficult pace, to read or not to read the labels, to glance or study the exhibits.

Nelson Graburn, “The Museum and the Visitor Experience” in Nichols, Susan K., ed. 1984. Museum Education Anthology:1973-1983. Washington, D.C.: Museum Education Roundtable
